MANILA, April 7.—There was a respite in the hostilities, chiefly in order to allow the Filipinos to digest the proclamation of the United States commission.

The rebels remained remarkably quiet. The sharpshooters of General Lawton's ine borrowed the Filipino tactics and harrassed the rebels at night, picking off some of them nightly.

Malolos was resuming its natural asspect, business was going on, preparatiens were being made to establish a permanent camp for the troops there and the soldiers were cleaning the city.

A third of the American forces at Maloles was sent nightly to form an advanced line a mile north of the city with patrols and sentinels ahead of the line. General MacArthur's volunteers were receiving Krag-Jorgensen rifles, the Filipinos having discovered that they could effectively empty their Mauser rifles and retreat before the Americans approached near enough to use their Springfield rifles with effect.

Advices received here from Samar, an island forming a province of the Philippines, said the revolutionists there were weary. Their leader, General Lukban, of Chinese ancestry, deserted with the funds. The inhabitants were desirous of American rule.

Colonel Smith, the governor of the island of Negros, reported that a number of bandits, headed by a man named Papaissio, attempted a rebellion on March 27, and killed several officials of Jumamaylan. He also captured other officials and issued a proclamation calling upon the natives to rise and exterminate the Americans and Spaniards. Major Sims and two companies of the California regiment were dispatched by water to the scene of the disturbances, and Colonel Duboce and two other companies of troops were sent overland. On April 2 this force marched about 12 miles and captured Lebaid, the headquarters of the bandits, and destroyed cantured 35 the town. The troops a prisoners and scattered Papaissio's forces, thus probably effectually quelling the rebellion at the outstart.

Washington, April 7.—General Otis sent a dispatch to the adjutant general, replying to inquiries made in regard to one Huber. Senator Perkins of California had informed the department that it was believed that Huber had been killed by the insurgents. The reply of General Otis said:

"Huber, hospital corps, insurgent prisoner; passed beyond lines without permission seven days before hostilities commenced, having camera and revolver. Was arrested near Malolos because armed and taking photographs. Was in civilian dress; claimed to be British seaman; was in fair health Feb. 10, when money furnished him with, promise of more to follow. He and three other prisoners arrested before hostilities commenced were at Malolos ten days before capture of city. Beheved that all are alive.'

CANAL DOVER MAN'S BROTHER.

Rev. Christian Weber Notified the Government Will Take Action—The Victim Was Returning to His Work In Alaska From Canal Dover.

CANAL DOVER, April 7.—Rev. Christian Weber, pastor of the Moravian church of this town, received advices from the government that an effort will be made to verify the supposed murder of his brother, Rev. J. H. Weber, an Alaskan missionary, while the latter, with his wife and child, was returning from here to their mission post in Alaska, near the source of the Kuskok.

The Weber party, with 16 gold miners, embarked up the Kuskokwin river in the Jesse, a chartered steamer. Later the bark was found wrecked on the shore and the bodies of several of the party were recovered from the river some distance below, with marks of violence upon them.

It is supposed the steamer was wrecked and that the entire party was massacred by hostile Indians. The fact that the baggage was plundered and all articles of value stolen gives color to the belief. Rev. Christian Weber has been co-operating with some of the relatives of the Tennesseeans who were on the ill-fated steamer an I the government has been interested.

Secret service men will be dispatched to Alaska to clear up the mystery and bring the guilty parties to justice, if

CINCINNATI, April 7.—The order of Solicitor General Richard to United States Attorney Bundy of this city to proceed against the Chesapeake and Ohio Fuel company of Cincinnati and 15 other companies for violation of the anti-trust law of 1890, as reported from Washington Wednesday, was instigated last fall by President Ratchford of the United Mine Workers. He asked the district attorney here to proceed against the Chesapeake and Ohio Fuel company for discrimination in rates in carrying coal in the Kanawha region of

West Virginia. Mr. Bundy referred that to the interstate commerce commission, and it was settled by that body. Meantime the United States grand jury indicted the fuel company and 15 other companies arator, clover huller and other agriculconnected with it in this city for violation of the Sherman act of 1890. Anti-Imperialism His Theme-He Has Chapters by Carnegie, Teller and Others.

CHICAGO, April 7.—The Hou. William J. Bryan is to publish a book entitled "Republic or Empire—The Philippine Question," in which he discusses territorial expansion from every standpoint, his argument being supplemented by chapters dealing with the various phases of the subject by Andrew Carnegie, George F. Hoar, John W. Daniels, Henry M. Teller and other statesmen and scholars.

As to imperialism, Mr. Bryan said in part: "Imperialism finds its inspira-tion in dollars, not in duty. It is not our duty to burden our people with increased taxes in order to give a few speculators an opportunity for exploitation; it is not our duty to sacrifice the best blood of our nation in tropical jungies in an attempt to stifle the very sentiments which have given vitality to American institutions; it is not our duty to deny to the people of the Philippines the right for which our forefathers fought from Buuker Hill to Yorktown.

He said the peace commissioners might have taken a harbor and coaling station, and compelled Spain to surrender the rest of the island to the Filipinos, as in the case of Cuba, and guaranteed the payment of the \$20,000,000 to Spain by the Filipinos. The decision of the question, he said, rests with congress and the people.

HONORS TO THE DEAD.

Services Over War Heroes Held at Arlington.

PRESIDENT M'KINLEY PRESENT.

Other Notables There, Some of Them Representatives of Foreign Countries. Catholic and Episcopal Clergymen officiated-Military Salutes Fired.

Washington, April 7.-With full honors of war, upon the crest of the southern slope of Arlington cemetery, the nation, represented by President McKinley, most of the cabinet and other high dignitaries of the government, the commanding general of the army and other distinguished officers, the military attaches of the British and German governments, regular and militia organizations of the district and a vast concourse of 15,000 people, paid the last tender tribute of honor and respect to the bodies of 336 officers and men who gave their lives on distant battlefields for their country during the Spanish-Ameri-

In the burial lot, which covered about two acres in extent, in parallel rows the wooden boxes containing the caskets were ranged, separated by great mounds of earth. Over each box an American flag was draped. The boxes containing the bodies of Captain Edgar Hubert of the Eighth United States infantry; Lieutenant L. I. Barnett, Ninth United States infantry; Lieutenant William Wood, Twelfth United States infantry; Lieutenant R. S. Turman, Sixth United States infantry and Lieutenant Francis Creighton, United States volunteer signal corps, were placed at the head of the line of graves immediately under the eye of the presidential party. Of the others fully 70 per cent are identified. About 30 per cent are wholly unknown, or known only by the regiment to which they belonged.

Before the arrival of the presidential party and the military escort detachments from the Fourth and Fifth artillery kept vigil over the dead.

The president and others, including some of the representatives of foreign countries, stood with uncovered heads at the graves. As the president arrived a pathetic incident occurred when aged Mr. and Mrs. O'Dowd pressed through the lines and placed a bunch of roses on the casket of their son, John O'Dowd of the Seventh infantry. The parents of Lieutenant Wood also came forward and deposited a beautiful wreath of flowers. The sword of that gallant officer was upon his casket. Immediately the band broke out in the sweet strains of "Nearer, My God, to Thee," and Post Chaplain C. W. Freeland of Fort Monroe, in the ecclesiastical robes of his office, with Rev. Frather McGee of St. Patrick's church, followed by three pnrple-gowned acolytes, advanced to the graves and the funeral services began. They were very simple, but very impressive. Rev. Freeland read the military committal service of the Episcopal church, beginning with "man that is born of woman" and concluding with the promise of heaven contained in the words "I am the resurrection and the life." As he pronounced the words 'dust to dust, earth to earth' the soldiers at the side of each grave crumbled a clod of earth upon each casket. The vast concourse bared their heads to the solemn words and scene and thousands joined in the Lord's prayer.

The Rev. Father McGee then consecrated with the churchly power invested in him the earth into which the bodies of the Catholic soldiers were placed. Meantime from Fort Myer came the dull erack of a gun every half hour and the national ensigns on the staffs there and at the Lee mansion were run down to half mast. As soon as the religious services had been concluded, flanking detachments of the Fourth and Fifth artillery fired three volleys, and in the solemn hush that followed the salute the bugle sounded "Taps." The presidential party and the military departed, leaving the actual work of interment to follow. As each of the caskets weighs almost 500 pounds and requires eight men to handle it, it will be two or three days before all the bodies are in their

In order to permit all government employes to attend the services, all the departments and the federal courts were closed by an executive order of the president and all the flags in the city were half masted.

Services Over War Heroes Held at Arlington.

PRESIDENT M'KINLEY PRESENT.

Other Notables There, Some of Them Representatives of Foreign Countries. Catholic and Episcopal Clergymen ofticiated-Military Salutes Fired.

WASHINGTON, April 7 .- With full honors of war, upon the crest of the southern slope of Arlington cemetery, the nation, represented by President McKinley, most of the cabinet and other high dignitaries of the government, the commanding general of the army and other distinguished officers, the military attaches of the British and German governments, regular and militia organizations of the district and a vast concourse of 15,000 people, paid the last tender tribute of honor and respect to the bodies of 336 officers and men who gave their lives on distant battlefields for their country during the Spanish-Ameri-

In the burial lot, which covered about two acres in extent, in parallel rows the wooden boxes containing the caskets were ranged, separated by great mounds ef earth. Over each box an American flag was draped. The boxes containing the bodies of Captain Edgar Hubert of the Eighth United States infantry; Lieutenant L. I. Barnett, Ninth United States infantry; Lieutenant William Wood, Twelfth United States infantry; Lieutenant R. S. Turman, Sixth United States infantry and Lieutenant Francis Creighton, United States volunteer signal corps, were placed at the head of the line of graves immediately under the eye of the presidential party. Of the others fully 70 per cent are identified. About 30 per cent are wholly unknown, or known only by the regiment to which they belonged.

Before the arrival of the presidential party and the military escort detachments from the Fourth and Fifth artillery kept vigil over the dead.

The president and others, including some of the representatives of foreign countries, stood with uncovered heads at the graves. As the president arrived a pathetic incident occurred when aged Mr. and Mrs. O'Dowd pressed through the lines and placed a bunch of roses on the casket of their son, John O'Dowd of the Seventh infantry. The parents of Lieutenant Wood also came forward and deposited a beautiful wreath of flowers. The sword of that gallant off-cer was upon his casket. Immediately the band broke out in the sweet strains of "Nearer, My God, to Thee," and Post Chaplain C. W. Freeland of Fort Monroe, in the ecclesiastical robes of his office, with Rev. Frather McGee of St. Patrick's church, followed by three pnrple-gowned acolytes, advanced to the graves and the funeral services began. They were very simple, but very impressive. Rev. Freeland read the military committal service of the Episcopal church, beginning with "man that is born of woman" and concluding with the promise of heaven contained in the words "1 am the resurrection and the life." As he pronounced the words "dust to dust, earth to earth" the soldiers at the side of each grave crumbled a clod of earth upon each casket. The vast concourse bared their heads to the solemn words and scene and thousands joined in the Lord's prayer.

The Rev. Father McGee then consecrated with the churchly power invested in him the earth into which the bodies of the Catholic soldiers were placed. Meantime from Fort Myer came the dull crack of a gun every half hour and the national ensigns on the staffs there and at the Lee mansion were run down to half mast. As soon as the religious services had been concluded, flanking detachments of the Fourth and Fifth artillery fired three volleys, and in the solemn hush that followed the salute the bugle sounded "Taps." The presidential party and the military departed, leaving the actual work of interment to follow. As each of the caskets weighs almost 500 pounds and requires eight men to handle it, it will be two or three days before all the bodies are in their

In order to permit all government employes to attend the services, all the departments and the federal courts were closed by an executive order of the president and all the flags in the city were half masted.

WANT AMERICAN RULE.

Rebels of Samar Tired of Insurrection.

LEADER SKIPPED WITH FUNDS.

sprising In the Island of Negros Was Quelled by California Troops—Lawton's sharpshooters Adopted Filipino Tac-Hes-Soldiers Were Cleaning Malolos.

Manilla, April 7.—There was a respite in the hostilities, chiefly in order to allow the Filipinos to digest the proclamation of the United States commission.

The rebels remained remarkably quiet. The sharpshooters of General Lawton's he borrowed the Filipino tactics and harrassed the rebels at night, picking off some of them nightly.

Malolos was resuming its natural asspect, business was going on, prepara-tions were being made to establish a permanent camp for the troops there and the soldiers were cleaning the city. A third of the American forces at Ma-

lolos was sent nightly to form an advanced line a mile north of the city with patrols and sentinels ahead of the line. General MacArthur's volunteers were receiving Krag-Jorgensen rifles, the Filipinos having discovered that they could effectively empty their Manser rifles and retreat before the Americans approached near enough to use their Springfield rifles with effect.

Advices received here from Samar, an island forming a province of the Philippines, said the revolutionists there were weary. Their leader, General Lukban, of Chinese ancestry, deserted with the funds. The inhabitants were desirous of American rule.

Colonel Smith, the governor of the island of Negros, reported that a number of bandits, headed by a man named Papaissio, attempted a rebellion on March 27, and killed several officials of Jumamaylan. He also captured other officials and issued a proclamation calling upon the natives to rise and exterminate the Americans and Spaniards. Major Sims and two companies of the California regiment were dispatched by water to the scene of the disturbances, and Colonel Duboce and two other companies of troops were sent overland. On April 2 this force marched about 12 miles and captured Lebaid, the head-quarters of the bandits, and destroyed the town. The troops also captured 35 prisoners and scattered Papaissio's forces, thus probably effectually quelling the rebellion at the outstart.

Washington, April 7.—General Otis sent a dispatch to the adjutant general, replying to inquiries made in regard to one Huber. Senator Perkins of California had informed the department that it was believed that Huber had been killed by the insurgents. The reply of General Otis said:

"Huber, hospital corps, insurgent prisoner; passed beyond lines without permission seven days before hostilities commenced, having camera and revolver. Was arrested near Malolos because armed and taking photographs. Was in civilian dress; claimed to be British seaman; was in fair health Feb. 10, when money furnished him with, promise of more to follow. He and three other prisoners arrested before hostilities commenced were at Malolos ten days before capture of city. Be-lieved that all are alive."

PRESERVED BEEF WAS USED.

Letter From Armor & Co. Showing It Tested and Distributed to Troops, at Tampa.

WASHINGTON, April 7 .- In the army beef court of Aquiry the letter of Messrs. Armour & Co., proposing to use the Powell process for the preservation of beef, was submitted as evidence by Major Lee, acting for General Miles. It was addressed to the commissary general, dated at the firm's Washington office, July 13, 1898, and read in part as

"As supplementary and explanatory on our bid to supply dressed beef in Cuba we wish to say that we have the exclusive control of the Powell process for preserving fresh meats, and that this process has been tested at Tampa, Fla., the test having been completed with

most satisfactory results. "This test was made under the supervision of Colonel John Weston of your department, who has advised you of the results. We are advised, however, that he received four carcasses of beef which were sent him from Chicago duly refrigerated and treated according to the

Powell process. "Part of these carcasses were enveloped in sacks or canvas, and part were not. These carcasses were distributed to the Third cavalry and Sixth cavalry, batteries of artillery and the medical department.

"These practical tests, made under the supervision of your own officer, show that by means of this process, wrapped pieces of carcasses can be kept longer than 72 hours, required by your

specifications.
"We believe we may safely say that such results have never before been accomplished in the history of the freshmeat business.

"In view of the tests which we have made in the past and of the result of the tests made under the supervision of your own officer, we believe that we are absolutely safe in the assertion that this is the only process or method which will secure the results required by your specifications."

violence upon them.

It is supposed the steamer was wrecked and that the entire party was massacred by hostile Indians. The fact that the baggage was plundered and all articles of value stolen gives color to the belief. Rev. Christian Weber has been co-operating with some of the relatives of the Tennesseeans who were on the ill-fated steamer and the government has been interested.

RATCHFORD BACK OF IT.

He Instituted the Movement Which Resulted In Suits Against Fuel Companies.

CINCINNATI, April 7.—The order of Solicitor General Richard to United States Attorney Bundy of this city to proceed against the Chesapeake and Ohio Fuel company of Cincinnati and 15 other companies for violation of the anti-trust law of 1890, as reported from Washington Wednesday, was instigated last fall by President Ratchford of the district attorney here to proceed against the Chesapeake and Ohio Fuel company for discrimination in rates in carrying coal in the Kanawha region of West Virginia.

Mr. Bundy referred that to the interstate commerce commission, and it was settled by that body. Meantime the United States grand jury indicted the fuel company and 15 other companies connected with it in this city for violation of the Sherman act of 1890. The attorney general, whose attention was called to the matter by the proceedings of the interstate commerce commission. went to Cincinnati for the papers in connection with the indictment.

Meantime the defendants appeared in the United States district court and filed a demurrer and a motion to quash, both of which are under advisement. The order to Attorney Bundy to proceed with the action would seem to supercede both these motions.

ROBBERS BLEW UP A BANK.

Escaped After Failing to Get the Cash, at Botkins, O .- Many Shots Exchanged.

WAPAKONETA, O., April 7.-Five men made a desperate though unsuccessful Francis Reynolds Passed Away Last attempt to rob the Sheets bank at Botkins, a small town near here. There was \$10,000 in the inner safe, but the robbers did not get it. The citizens of the town were startled by hearing two explosions. An investigation revealed five men in an effort to force the vault of the bank. The robbers had stolen tools from a blacksmith shop, also a team and carriage from a livery. Two 3 o'clock. of the men worked in the building and the other three paraded the streets. The lone watchman in the fire engine house had been overpowered. When citizens driven back by the robbers firing on

BRYAN WRITES A BOOK.

Anti-Imperialism His Theme-He Has Chapters by Carnegie, Teller and Others.

CHICAGO, April 7.—The Hon. William J. Bryan is to publish a book entitled "Republic or Empire—The Philippine Question," in which he discusses territorial expansion from every standpoint, his argument being supplemented by chapters dealing with the various phases of the subject by Andrew Carnegie, George F. Hoar, John W. Daniels, Henry M. Teller and other statesmen and scholars.

As to imperialism, Mr. Bryan said in part: "Imperialism finds its inspira-tion in dollars, not in duty. It is not our duty to burden our people with increased taxes in order to give a few speculators an opportunity for exploitation: it is not our duty to sacrifice the best blood of our nation in tropical jungies in an attempt to stifle the very sentiments which have given vitality to American institutions; it is not our duty to deny to the people of the Philippines the right for which our forefathers fought from Bunker Hill to Yorktown."

He said the peace commissioners might have taken a harbor and coaling station, and compelled Spain to surrender the rest of the island to the Filipinos, as in the case of Cuba, and guaranteed the payment of the \$20,000,000 to Spain by the Filipinos. The decision of the question, he said, rests with congress and

THE EAST END.

Over Six Thousand Dollars Subscribed.

THOUSAND NEEDED FIFTEEN

To Make the Project a Success-More Buildings Under Contract-Mayor Bough Has Issued an Order-Discovered a Fire.

It is now assured that the glass factory will be located in the East End on the Harker property. Such was the statement given out yesterday by a prominent business man of Virginia avenue.

When active work on the project was being done last fall trust talk among the potteries was at its height. Those who had the matter in hand decided it would be wise to do no work until the trust matter had been settled one way or another. Last week the promoters of the project met and decided to commence the work of soliciting stock at once. This was commenced last Monday, and so far this week over \$6,000 has been raised. The capital stock of the company will be \$15,000, paid up.

This morning one of the company stated that everything looked favorable for work on the erection of the plant to be commenced not later than the last of May.

More Houses In Sight.

John Fowler will within a few weeks commence the erection of a fine residence in Pennsylvania avenue. It will cost in the neighborhood of \$4000.

Mrs. George Thompson, of Ralston crossing, will also commence the erection of two modern dwellings in Pennsylvania avenue, near the park.

Plans are now being drawn for three frame dwellings to be erected in the Dry Run district by Harvey Martin. Work on these houses will be commenced within a few weeks.

Ordered by the Mayor.

Mayor Bough yesterday afternoon notified Fireman Terrence that hereafter all people who were caught burning brush, straw or other rubbish in their yards or streets were to be notified to call at city hall. There is an ordinance prohibiting such actions and a heavy penalty is attached. Such fires are all times dangerous, and the practice will be broken at once.

A New Lumber Yard.

Yesterday afternoon several well known men, residents of East End, held a meeting for the purpose of organizing a company to open a lumber yard. Definite plans were decided upon, and another meeting will be held next week. The capital stock of the company will be about \$5000 paid in full It will give employment to quite a number of men.

Found a Fire.

While Officer Terrence was making his rounds Wednesday evening he discovered a chimney in the residence occupied by Mrs. Wise in Railroad street to be on fire. After working for a few minutes the flames were extinguished. The occupants of the house did not know of their danger until notified by the officer.

Now They Can Talk.

Manager Swaney this week placed telephones in the residence of H. A. Weeks, in Pennsylvania avenue, and in the office of Doctor Davis. It is expected at least 12 telephones will be in active use in this part of the city before They Are Slated to Take Place This the end of the month.

Soon to be Married.

It was stated yesterday evening a prominent young man of East End and a young lady residing in Pennsylvania avenue would soon be married. The parties when seen would neither confirm nor deny the report.

Able to be Out.

I. N. McHenry, of Erie street, who has been confined to his home for four months suffering with catarrhal fever, was able to be out yesterday for the first time. He is very weak

It is more than a week since George Brunt walked from the courthouse in Lisbon cleared by a jury of the charge of murder in the second degree, but the story of what the jury did while it was locked in the little room used by such bodies has never until now been given to the public. Rumors have been circulated, but there were few persons who could put much faith in them. While they may have told a portion of the trath it was very well understood that only a little had been told. This lack of information was probably due to the fact that each juror agreed to say nothing of what transpired, at least not until the trial had ceased to be a matter for general discussion. The story, however, has come out, and will doubtless be read with interest by persons in this place who wondered how the jury reached its

When the jury retired a vote was at once taken on the question of whether the accused was guilty, as charged in the indictment, of murder in the second degree. The result showed that 11 jurymen believed he was not, the other vote being in the affirmative. It was soon discovered that the man who voted for conviction did not understand the question. He thought he was voting on a proposition of punishment without regard to degree, that is whether the accused should or should not be made to suffer for what he had done. The matter was explained to him at length. and he acknowledging that he had made mistake was ready for the second ballot. It was then plainly stated that the jury would vote on the question of the guilt of George Brunt, as indicted, and it was decided that he was not guilty of murder in the second degree.

The next proposition was whether he was guilty of manslaughter, and here is where the battle raged. Nine jurors did not vote for it, but the other three believed he was guilty and voted that way for a long time. Ballot after ballot was taken, but there was no change. At length one man went over to the majority, and the vote stood 10 to 2, The struggle was renewed, and there was more balloting. After a time the refractory members decided they were wrong, and voted that manslaugher should not be the verdict. Then the jury decided the accused was innocent, and the report was promptly made to Judge Kennedy.

The parties who were for conviction were not residents of the southern part of the county, although their names cannot be learned. More than 20 ballots were taken before the verdict was finally agreed upon.

WHEAT ALL RIGHT.

State Report Says It Weathered the Winter Well.

The state crop report for April issued by the state board of agriculture shows that the wheat crop in this state has weathered the severe winter in fairly good shape, thanks to the heavy coating of snow that covered it during the period of the severest cold.

The condition of the crop is placed at 85 per cent of a full average condition at this season, with the chances for improvement with good weather from now on that may raise it. There is also the chance, of course, that unfavorable weather may still further reduce the percentage, but one seems warranted now in expecting an end of wintry

While Considering the Fate of George Brunt.

THE VOTE STOOD TEN TO THREE

for Several Hours, When One Came Over te the Majority, and the Remainder of the Time Was Spent In Convincing the gther Two--Over Twenty Ballots Taken.

It is more than a week since George Brunt walked from the courthouse in lasbon cleared by a jury of the charge of murder in the second degree, but the story of what the jury did while it was locked in the little room used by such bodies has never until now been given to the public. Rumors have been circulated, but there were few persons who could put much faith in them. While they may have told a portion of the trath it was very well understood that only a little had been told. This lack of information was probably due to the fact that each juror agreed to say nothing of what transpired, at least not until the trial had ceased to be a matter for general discussion. The story, however, has come out, and will doubtless be read with interest by persons in this place who wondered how the jury reached its

When the jury retired a vote was at once taken on the question of whether the accused was guilty, as charged in the indictment, of murder in the second degree. The result showed that 11 jurymen believed he was not, the other vote being in the affirmative. It was soon discovered that the man who voted for conviction did not understand the question. He thought he was voting on a proposition of punishment without regard to degree, that is whether the secused should or should not be made to suffer for what he had done. The matter was explained to him at length. and he acknowledging that he had made s mistake was ready for the second ballot. It was then plainly stated that the jury would vote on the question of the guilt of George Brunt, as indicted. and it was decided that he was not gallty of murder in the second degree.

The next proposition was whether he was guilty of manslaughter, and here is where the battle raged. Nine jurors. did not vote for it, but the other three believed he was guilty and voted that way for a long time. Ballot after ballot was taken, but there was no change. At length one man went over to the majority, and the vote stood 10 to 2. wrong, and voted that manslaugher and the report was promptly made to Judge Kennedy.

The parties who were for conviction were not residents of the southern part of the county, although their names cannot be learned. More than 20 ballots were taken before the verdict was finally agreed upon.

WHEAT ALL RIGHT.

State Report Says It Weathered the Winter Well.

The state crop report for April issued by the state board of agriculture shows that the wheat crop in this state has weathered the severe winter in fairly good shape, thanks to the heavy coating of snow that covered it during the period of the severest cold.

The condition of the crop is placed at 85 per cent of a full average condition at this season, with the chances for imweather may still further reduce the percentage, but one seems warranted now in expecting an end of wintry Weather.

Sixty Men Examined For Jurymen In Mrs. George's Trial.

CANTON, O., April 7.—At the closing The struggle was renewed, and there of court Thursday the defense still had was more balloting. After a time the nine peremptory challenges, and if all refractory members decided they were are exercised much more time will be required to complete the jury, It was not believed, however, that many more should not be the verdict. Then the challenges would be preferred and that jury decided the accused was innocent, at least ten of the men already selected probably will be acceptable to the dedefense.

Sixty men had been examined as to qualifications for the jury.

Mrs. Althouse and young Hogan, the witnesses wanted by both sides, had not turned up and their present whereabouts were unknown. Mrs. Althouse had left a Pennsylvania town to which she had been traced. The defense failed to locate Mrs. Elizabeth Parks, former cashier in a New York hotel, who was reported as having been engaged to marry Saxton at the time of the tragedy, and whose deposition was wanted by the de-

It will be impossible to deliver the heavy machinery at the plant antil the railroad is completed, and that work alone will require about four months. Setting the machinery will consume two months longer. The contract for the extension of the road has not yet been let, but the officials at Pittsburg are pushing matters as rapidly as possible and will give out the work next Wednesday. Perhaps it can be done on Tuesday.

The rolling mill will be built on the McDonald farm, a short distance above Rock Spring and almost opposite the power house. The ground is level and well adapted to the purpose for which it will be used.

Mr. McDonald was jubilant this morning over his success. His pet project for years has been the construction of a rolling mill on the Virginia side, and now that he has succeeded in landing the prize he is well satisfied.

And Was Known to Almost Every One In Town--Twenty Jersey Cows Sent to the Country Where a New Creamery Is to be Established -- All the News.

Samuel McClain, one of the oldest residents of Wellsville, died last night at the home of his daughter, Mrs. Louis McCay, First street.

Mr. McClain had resided here for 30 years, and had he lived until next August would have observed his ninetieth anniversary. He was known to a great many people, and possessed a great fund of information concerning Wellsville and its people during the time he resided here.

Arrangements for the funeral have not yet been made.

New Creamery.

Preparations are being made for a creamery to be built on the McCullough farm and it will be started just as soon as the machinery arrives. Yesterday 20 Jersey cows were shipped here and were taken at once to the farm. The creamery will be in charge of Mr. Mc-Donald, of Salem, an experienced man.

It is deemed proper to name some person who has not been involved in any manner in the past difficulties on the islands. If there is any real intention of securing an amicable agreement between the three powers interested in Samoan affairs it is believed that some such policy as this is essential. Therefore, the Berlin intimation in some of the press dispatches that Herr Schmidt has been selected as the German commissioner does not meet with credence here, for while he was in Apia, first as vice consul and afterwards as president of the municipal council, Herr Schmidt became involved with our consul, Mr. Mulligan, to a degree which led to the retirement of both these officials.

The German ambassador, Dr. Von Holleben, called at the state department to felicitate Secretary Hay on the satisfactory adjustment of the Samoan

Official dispatches were received from Berlin stating that as a result of conferences between the German, British and American representatives a settlement was assured. The main feature of this conference was in a determination that the high commission would act by unanimous vote and not through a majority. This is on the theory that the delegates will be of high character, that unanimous agreement will be certain, although there is, of course, the possibility of a deadlock. The present tendency is not to provide a final arbitrator, but to assume that the commission will agree among themselves. This eliminates for the present King Oscar of Sweden, who has been mentioned for umpire. The German ambassador and members of his staff also made a call at the British embassy, thus further evidencing the agreeable relations which have suddenly taken the place of the rather strained conditions heretofore prevailing on Samoa.

Starvation About Disappeared In Several Provinces-Yellow Fever Time About May 1.

WASHINGTON, April 7.—Major General John R. Brooke has forwarded to sanitary measures taken in the departments of Santa Clara and Matanzas.

Major J. H. Hysell, chief surgeon of the department of Santa Clara, in a report dated at Cienfuegos, Feb. 26, said in rt that there had been seven cases of Spiritus, with one death. The source of brisk to high northeast to north winds. the infection was an old church, formerly used by the Spanish soldiers as a hospital. Other buildings where there were cases of smallpox and other diseases were destroyed by the Americans. Lieutenant Colonel Timothy E. Wil-

cox, chief surgeon of the department of Matanzas, reported under date of March 5. He had visited 13 different towns in the department and said that the rations and medical supplies had been distribnted in these places and greatly relieved the suffering. The condition of the peo-ple had greatly improved. Those who had sufficiently recovered from starvation and sickness had gone to work.

The reconcentrados had gone back to the country when able, but many are obliged to return for rations-food being yet unobtainable in sufficient quantities to sustain them. Assistance will be required for nearly two months longer. Deaths from starvation have ceased to occur; the people are cheerful and hopeful. One sees smiling faces and hears laughter and singing.

It appears that the limit of safety for unacclimated troops in this vicinity is May 1. After that date paludal fevers, as well as yellow fever, may be expected. This is the concensus of opinion of medical men throughout the province vis-

### OUTRAGES BY TORRES.

Americans Protest and a Warship Was Ordered to Bluefleldt, to Also Costa Rica.

Washington, April 7.—The cruiser Detroit, which is now lying off La Guayra, Venezuela, has been ordered posthaste to Bluefields, Nicaragua, for that quarter.

The arbitrary and extortionate policy adopted by General Torres at Bluefields, whose restoration to power at this time has been followed by acts which American residents resent and protest against, is the main cause of the vessel's dispatch. The state department cabled instructions to the United States diplomatic representative at Bluefields to lodge an energetic protest with the Nicaraguan government against the action of General Torres, and a disregard of this protest will be followed up by a more positive step. In Costa Rica the American business interests and residents were in trouble as a result of an insurrectionary movement. It was understood that the insurgents were levying forced loans on them, besides collecting exorbitant and double duties on imports.

For the Trans-African Road.

LONDON, April 7.—The St. James Gazette announced that Cecil Rhodes had pounds.

now obtained a guarantee from the German government upon the capital of the German portion of the Cape to Caira railroad. German financiers have agreed to provide the capital.

### TO ALLEVIATE DISTRESS.

Army Expedition Ordered to Hurry to the Copper River District, Alaska.

Washington, April 7.—Acting Secretary Meiklejohn stated that owing to the numerous stories of destitution and suffering in Alaska which are being received at the department orders have been issued to Captain Abercrombie, commanding the Copper river expedition, to hurry his departure as much as

A telegram received from that officer indicated that this expedition will leave Seattle on the 13th inst. They should reach Valdez on the 19th of the month. The hope is expressed at the war department that the prompt action of the military authorities in expediting arrangements will serve to alleviate the distress at an early date.

### An Egg Taken as Evidence.

An extraordinary birth certificate was submitted at a meeting of the school attendance committee of the Northwich Union the other day. A widow named Bell had been called upon to prove that her daughter had reached the school exemption age, and she produced an egg, beautifully colored in purple, yellow and cream, whereon, in almost copperplate characters, the name and date of nativity were picked out in white, together with the texts, "The Lord shall guide thee continually" and "Teach me to do thy will." This novel certificate was the only record possessed by the mother, and after being much admired by the committee was accepted as evidence. - Birmingham Post

### Mixed Berries.

A young tailor named Berry, lately succeeded to his father's business, once sent in his account to Charles Matthews somewhat ahead of time, whereupon Matthews, with virtuous rage, wrote him the following note:

"You must be a goose-Berry to send me your bill-Berry, before it is due-Berry. Your father, the elder-Berry, would have had more sense. You may look very black-Berry, and feel very blue-Berry, but I don't care a straw-Berry for you and your bill-Berry."-"Cyclopædia of Anecdotes."

### The Murderer Escaped.

NEWKIRK, O. T., April 7 .-- It is admitted by members of the posse which the adjutant general copies of reports of chased Claude Mattox through the territory for 50 miles that the mnrderer made good his escape. Sheriff Pearce, who headed the pursuers, was said to have killed Mattox.

### TO ALLEVIATE DISTRESS.

Army Expedition Ordered to Hurry to the Copper River District,

Washington, April 7.—Acting Secretary Meiklejohn stated that owing to the numerous stories of destitution and suffering in Alaska which are being received at the department orders have been issued to Captain Abercrombie, commanding the Copper river expedition, to hurry his departure as much as possible.

A telegram received from that officer indicated that this expedition will leave Seattle on the 13th inst. They should reach Valdez on the 19th of the month. The hope is expressed at the war department that the prompt action of the military authorities in expediting arrangements will serve to alleviate the distress at an early date.

### An Egg Taken as Evidence.

An extraordinary birth certificate was submitted at a meeting of the school attendance committee of the Northwich Union the other day. A widow named Bell had been called upon to prove that her daughter had reached the school exemption age, and she produced an egg, beautifully colored in purple, yellow and cream, whereon, in almost copperplate characters, the name and date of nativity were picked out in white, together with the texts, "The Lord shall guide thee continually" and "Teach me to do thy will." This novel certificate was the only record possessed by the mother, and after being much admired by the committee was accepted as evidence. - Birmingham Post.

### Mixed Berries.

A young tailor named Berry, lately succeeded to his father's business, once sent in his account to Charles Matthews somewhat ahead of time, whereupon Matthews, with virtuous rage, wrote him the following note:

"You must be a goose-Berry to send me your bill-Berry, before it is due-Berry. Your father, the elder-Berry, would have had more sense. You may look very black-Berry, and feel very blue-Berry, but I don't care a straw-Berry for you and your bill-Berry."-'Cyclopædia of Anecdotes.'

### UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours and union labor employed.

This Country, England and Germany Agree on the Powers of the High Commission.

WASHINGTON, April 7.—Herr Solf. who is to succeed Dr. Raffel as president of the municipal council of Apia, left Washington for his post. He intends to stop at Chicago and also at Colorado Springs, Colo. The state department had not selected its representative on the Samoan commission, but the president was giving the matter his personal attention.

It is deemed proper to name some person who has not been involved in any manner in the past difficulties on the islands. If there is any real intention of securing an amicable agreement between the three powers interested in Samoan affairs it is believed that some such policy as this is essential. Therefore, the Berlin intimation in some of the press dispatches that Herr Schmidt has been selected as the German commissioner does not meet with credence here, for while he was in Apia, first as vice consul and afterwards as president of the municipal council, Herr Schmidt became involved with our consul, Mr. Mulligan, to a degree which led to the retirement of both these officials.

The German ambassador, Dr. Von Holleben, called at the state department to felicitate Secretary Hay on the satisfactory adjustment of the Samoan

Official dispatches were received from Berlin stating that as a result of conferences between the German, British and American representatives a settlement was assured. The main feature of this conference was in a determination that the high commission would act by mnanimous vote and not through a majority. This is on the theory that the delegates will be of high character, that unanimous agreement will be certain, although there is, of course, the possi-bility of a deadlock. The present tendency is not to provide a final arbitrator, but to assume that the commission will agree among themselves. This eliminates for the present King Oscar of Sweden, who has been mentioned for umpire. The German ambassador and members of his staff also made a call at the British embassy, thus further evidencing the agreeable relations which have suddenly taken the place of the rather strained conditions heretofore prevailing on Samoa.

### CUBANS BECOMING HAPPY

Starvation About Disappeared In Several Provinces-Yellow Fever Time About May 1.

WASHINGTON, April 7.—Major General John R. Brooke has forwarded to mitted by members of the posse which the adjutant general copies of reports of chased Claude Mattox through the terrisanitary measures taken in the departments of Santa Clara and Matanzas.

Major J. H. Hysell, chief surgeon of the department of Santa Clara, in a report dated at Cienfuegos, Feb. 26, said in part that there had been seven cases of yellow fever among the troops at Sancti Spiritus, with one death. The source of the infection was an old church, formerly used by the Spanish soldiers as a hospital. Other buildings where there were cases of smallpox and other diseases were destroyed by the Americans.

Lieutenant Colonel Timothy E. Wilcox, chief surgeon of the department of Matanzas, reported under date of March 5. He had visited 13 different towns in the department and said that the rations and medical supplies had been distributed in these places and greatly relieved the suffering. The condition of the people had greatly improved. Those who \$10.00\(\alpha\)11.00. had sufficiently recovered from starvation and sickness had gone to work.

The reconcentrados had gone back to the country when able, but many are obliged to return for rations-food being yet unobtainable in sufficient quantities to sustain them. Assistance will be required for nearly two months longer. Deaths from starvation have ceased to occur; the people are cheerful and hopeful. One sees smiling faces and hears laughter and singing.

It appears that the limit of safety for unacclimated troops in this vicinity is May 1. After that date paludal fevers, as well as yellow fever, may be expected. This is the concensus of opinion of medical men throughout the province visited.

Schools were found in operation and apparently well attended.

### OUTRAGES BY TORRES.

Americans Protest and a Warship Was Ordered to Bluefleldt, to Also

Costa Rica.

Washington, April 7.—The cruiser Detroit, which is now lying off La Guayra, Venezuela, has been ordered posthaste to Bluefields, Nicaragua, for the protection of American interests in that quarter.

The arbitrary and extortionate policy adopted by General Torres at Bluefields, whose restoration to power at this time has been followed by acts which American residents resent and protest against, is the main cause of the vessel's dispatch. The state department cabled instructions to the United States diplomatic representative at Bluefields to lodge an energetic protest with the Nicaraguan government against the action of General Torres, and a disregard of this protest will be followed up by a more positive step. In Costa Rica the American business interests and residents were in trouble as a result of an insurrectionary movement. It was

### UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work ing hours and union labor employed.

### PATRONIZE UNION CLERKS.

Steel Cage.

STUTTERS AND DEFIES GUARDS

He is Almost as Bad as Ever, and Fears Are Entertained That He Will Attack someone If He Is Not Closely Watched at All Times.

Ira Marlatt is again the cause of commotion at the penitentiary, and Warden Coffin has had him locked in the steel cage that was built especially for his occupancy. He was confined in a for 18 months, and with weapons which no one ever knew how he seeared, took fiendish delight in attacking myone who came within reach.

For nearly a year, except for occasional intervals in which inherent mssedness was the guiding influence of his behavior, his conduct has been comparatively satisfactory to the officials. Marlatt will be confined in the cage antil the new steel apartment for unruly prisoners, authorized at the session of the board of managers to be built, and mentioned in the News Review of vesterday, is completed.

Marlatt is now almost as bad as he ever was and fears are entertained by first opportunity to attack the guards. Marlatt has been raving like a madman and stutters so that he can scarcely be understood.

He imagines the prison officials have something against him and that is why he is locked up. He threatened to kill anyone who entered his cell. Guard Pritner asked him for his cell bucket Wednesday and he promptly handed it to him. The guard then asked for the lid, whereupon he raved and swore like a maniac, saying the guard had no use for it and he had not better try to enter the cell to get it. He was advised to give up the lid, but stoutly refused. He will be kept in the steel cage until the new cage is built.

### FORGOT THE GONG

And an Accident Almost Happened at Fifth and Washington.

Last evening a westbound street car came near running down a buggy at the corner of Fifth and Washington streets, and only the quick action of the the driver prevented an accident.

The motorman of the street car was not ringing the gong or the affair would not have taken place. The crossings at Third, Fourth, Fifth and Sixth streets are dangerous and the motormen should always ring the gong when approaching

### GAS ORDINANCE

Will be Acted Upon at the Last Meeting of Council.

The meeting of council to be held Tuesday evening promises to be very interesting.

One of the last actions of the old council will be to vote on the gas ordinance and finish up any business they may have to transact. The new council will organize and the committees will be named, but it is probable no appointments will be made at the meeting.

### GAME ROOSTER

Flew on the Shoulder of a Child With Painful Results.

Yesterday afternoon in Seventh street the little child of a prominent man was playing in the yard and began to chase a game rooster out of the lot. The chicken did not take the action in the best of humor, and flying on the shoulder of the child spurred it in the face, inflicting a slight wound. The screams of the child attracted the mother and the rooster was driven away.

# WANT AMERICAN RULE.

Rebels of Samar Tired of Insurrection.

LEADER SKIPPED WITH FUNDS.

sprising In the Island of Negros Was Queiled by California Troops—Lawton's sharpshooters Adopted Filipino Tacties-Soldiers Were Cleaning Malolos.

MANILA, April 7.-There was a respite in the hostilities, chiefly in order to allow the Filipinos to digest the proclamation of the United States commission.

The rebels remained remarkably quiet. The sharpshooters of General Lawton's hie borrowed the Filipino tactics and harrassed the rebels at night, picking off

some of them nightly. Malolos was resuming its natural asspect, business was going on, preparations were being made to establish a permanent camp for the troops there and the soldiers were cleaning the city.

A third of the American forces at Malolos was sent nightly to form an advanced line a mile north of the city with patrols and sentinels ahead of the line. General MacArthur's volunteers were receiving Krag-Jorgensen rifles, the Filipinos having discovered that they could effectively empty their Mauser rifles and retreat before the Americans approached near enough to use their Springfield rifles with effect.

Advices received here from Samar, an island forming a province of the Philippines, said the revolutionists there were weary. Their leader, General Lukban, of Chinese ancestry, deserted with the funds. The inhabitants were desirous of American rule.

Colonel Smith, the governor of the island of Negros, reported that a number of bandits, headed by a man named Papaissio, attempted a rebellion on March 27, and killed several officials of Jumamaylan. He also captured other officials and issued a proclamation calling upon the natives to rise and exterminate the Americans and Spaniards. Major Sims and two companies of the California regiment were dispatched by water to the scene of the disturbances, and Colonel Duboce and two other companies of troops were sent overland. On April 2 this force marched about 12 miles and captured Lebaid, the head-quarters of the bandits, and destroyed the town. The troops also captured 35 prisoners and scattered Papaissio's forces, thus probably effectually quell-

### PRESERVED BEEF WAS USED.

Letter From Armor & Co. Showing It Tested and Distributed to Troops,

at Tampa.

Washington, April 7.—In the army beef court of Aquiry the letter of Messrs. Armour & Co., proposing to use the Powell process for the preservation of beef, was submitted as evidence by Major Lee, acting for General Miles. It was addressed to the commissary general, dated at the firm's Washington office, July 13, 1898, and read in part as

follows: "As supplementary and explanatory on our bid to supply dressed beef in Cuba we wish to say that we have the exclusive control of the Powell process for preserving fresh meats, and that this process has been tested at Tampa, Fla., the test having been completed with

most satisfactory results. "This test was made under the supervision of Colonel John Weston of your department, who has advised you of the results. We are advised, however, that he received four carcasses of beef which were sent him from Chicago duly refrigerated and treated according to the

Powell process. "Part of these carcasses were enveloped in sacks or canvas, and part were to the Third cavalry and Sixth cavalry, batteries of artillery and the medical de-

partment. "These practical tests, made under the supervision of your own officer, show that by means of this process, wrapped pieces of carcasses can be kept longer than 72 hours, required by your

specifications.
"We believe we may safely say that such results have never before been accomplished in the history of the freshmeat business.

"In view of the tests which we have made in the past and of the result of the tests made under the supervision of your own officer, we believe that we are absolutely safe in the assertion that this is the only process or method which will secure the results required by your specifications."

### ERIENDLY TO MISSIONARIES. MISSIONARY'S MURDER

Secret Service Men Will Seek Guilty In Alaska.

CANAL DOVER MAN'S BROTHER.

Rev. Christian Weber Notified the Government Will Take Action—The Victim Was Returning to His Work In Alaska From Canal Dover.

CANAL DOVER, April 7.—Rev. Christian Weber, pastor of the Moravian church of this town, received advices from the government that an effort will be made to verify the supposed murder of his brother, Rev. J. H. Weber, an Alaskan missionary, while the latter, with his wife and child, was returning from here to their mission post in Alaska, near the source of the Kuskokwin river.

The Weber party, with 16 gold miners, embarked up the Kuskokwin river in the Jesse, a chartered steamer. Later the bark was found wrecked on the shore and the bodies of several of the party were recovered from the river some distance below, with marks of violence upon them.

It is supposed the steamer was wrecked and that the entire party was massacred by hostile Indians. The fact that the baggage was plundered and all articles of value stolen gives color to the belief. Rev. Christian Weber has been co-operating with some of the relatives of the Tennesseeans who were on the ill-fated steamer and the government has been interested.

Secret service men will be dispatched to Alaska to clear up the mystery and bring the guilty parties to justice, if

### RATCHFORD BACK OF IT.

He Instituted the Movement Which Resulted In Suits Against Fuel Companies.

CINCINNATI, April 7.—The order of Solicitor General Richard to United States Attorney Bundy of this city to proceed against the Chesapeake and Ohio Fuel company of Cincinnati and 15 other companies for violation of the anti-trust law of 1890, as reported from Washington Wednesday, was instigated last fall by President Ratchford of the United Mine Workers. He asked the By the Administrators of Mrs. Nace's district attorney here to proceed against the Chesapeake and Ohio Fuel company for discrimination in rates in carrying coal in the Kanawha region of West Virginia.

Mr. Bundy referred that to the interstate commerce commission, and it was settled by that body. Meantime the United States grand jury indicted the fuel company and 15 other companies connected with it in this city for vio-lation of the Sherman act of 1890. The attorney general, whose attention was called to the matter by the proceedings of the interstate commerce commission, went to Cincinnati for the papers in set up what claims they have. connection with the indictment.

Meantime the defendants appeared in the United States district court and filed a demurrer and a motion to quash, both of which are under advisement. The order to Attorney Bundy to proceed with the action would seem to supercede both these motions.

### ROBBERS BLEW UP A BANK.

Escaped After Failing to Get the Cash, at Botkins, O.-Many Shots Exchanged.

WAPAKONETA, O., April 7.—Five men made a desperate though unsuccessful Francis Reynolds Passed Away Last attempt to rob the Sheets bank at Botkins, a small town near here. There was \$10,000 in the inner safe, but the robbers did not get it. The citizens of the town were startled by hearing two explosions. An investigation revealed five men in an effort to force the vault of the bank. The robbers had stolen tools from a blacksmith shop, also a not. These carcasses were distributed team and carriage from a livery. Two of the men worked in the building and the other three paraded the streets. The lone watchman in the fire engine house had been overpowered. When citizens sought to go into the streets they were driven back by the robbers firing on them.

A son of the president of the bank watched the doings from a distance. Soon most of the village was aroused. The robbers piled into the carriage and drove out of town. A posse of 25 men followed on horseback and numerous shots were fired. The effect of the dynamite explosions wrecked the bank building. A safe expert was summoned to open the safe containing the money.

### BRYAN WRITES A BOOK.

Anti-Imperialism His Theme-He Has Chapters by Carnegie, Teller and Others.

CHICAGO, April 7.—The Hon. William J. Bryan is to publish a book entitled "Republic or Empire—The Philippine Question," in which he discusses territorial expansion from every standpoint, his argument being supplemented by chapters dealing with the various phases of the subject by Andrew Carnegie, George F. Hoar, John W. Daniels, Henry M. Teller and other statesmen and scholars.

As to imperialism, Mr. Bryan said in part: "Imperialism finds its inspira-tion in dollars, not in duty. It is not our duty to burden our people with increased taxes in order to give a few speculators an opportunity for exploitation: it is not our duty to sacrifice the best blood of our nation in tropical jungles in an attempt to stifle the very sentiments which have given vitality to American institutions; it is not our duty to deny to the people of the Philippines the right for which our forefathers fought from Bunker Hill to Yorktown."

He said the peace commissioners might have taken a harbor and coaling station, and compelled Spain to surrender the rest of the island to the Filipinos, as in the case of Cuba, and guaranteed the payment of the \$20,000,000 to Spain by the Filipinos. The decision of the question, he said, rests with congress and the people.

NO DOLLAR DINNER FRICTION.

Brewster Says He Has Arranged Matters With the Other Committee.

New York, April 7.—Eugene Brewster, treasurer of the dinner committee of the Chicago platform Democrats, issued a statement, saying in part:

"While the Chicago platform Democrats still believe that they had legal title to the Grand Central palace for April 19, they have relinquished the same to the workingmen's dinner committee upon the payment of \$500, the price that we paid therefor, and we have already secured the Grand Central palace for April 15. There is now no friction or hard feelings of any kind between the two committees, and inasmuch as the two dinners are of an entirely different nature, there is now no possibility of any further conflict or misunderstanding. I received a telegram today from Colonel Bryan, saying that he would be here to address the Chicago platform Democrats at Grand Central palace on April 15,"

### HONORS TO THE DEAD.

Services Over War Heroes Held at Arlington.

PRESIDENT M'KINLEY PRESENT.

Other Notables There, Some of Them Representatives of Foreign Countries. Catholic and Episcopal Clergymen Officiated-Military Salutes Fired.

WASHINGTON, April 7 .- With full honors of war, upon the crest of the southern slope of Arlington cemetery, the nation, represented by President McKinley, most of the cabinet and other high dignitaries of the government, the commanding general of the army and other distinguished officers, the military attaches of the British and German governments, regular and militia organizations of the district and a vast concourse of 15,000 people, paid the last tender tribute of honor and respect to the bodies of 336 officers and men who gave their lives on distant battlefields for their country during the Spanish-American war.

In the burial lot, which covered about two acres in extent, in parallel rows the wooden boxes containing the caskets were ranged, separated by great mounds ef earth. Over each box an American flag was draped. The boxes containing the bodies of Captain Edgar Hubert of the Eighth United States infantry; Lieutenant L. I. Barnett, Ninth United States infantry; Lieutenant William Wood, Twelfth United States infantry; Lieutenant R. S. Turman, Sixth United States infantry and Lieutenant Francis Creighton, United States volunteer signal corps, were placed at the head of the line of graves immediately under the eye of the presidential party. Of the others fully 70 per cent are identified. About 30 per cent are wholly unknown, or known only by the regiment to which they belonged.

Before the arrival of the presidential party and the military escort detachments from the Fourth and Fifth artillery kept vigil over the dead.

The president and others, including some of the representatives of foreign countries, stood with uncovered heads at the graves. As the president arrived a pathetic incident occurred when aged Mr. and Mrs. O'Dowd pressed through the lines and placed a bunch of roses on the casket of their son, John O'Dowd of the Seventh infantry. The parents of Lieutenant Wood also came forward and deposited a beautiful wreath of flowers. The sword of that gallant officer was upon his casket. Immediately the band broke out in the sweet strains of "Nearer, My God, to Thee," and Post Chaplain C. W. Freeland of Fort Monroe, in the ecclesiastical robes of his office, with Rev. Frather McGee of St. Patrick's church, followed by three pnrple-gowned acolytes, advanced to the graves and the funeral services began. They were very simple, but very impressive. Rev. Freeland read the military committal service of the Episcopal church, beginning with "man that is born of woman" and concluding with the promise of heaven contained in the words "I am the resurrection and the life." As he pronounced the words "dust to dust, earth to earth" the soldiers at the side of each grave crumbled a clod of earth upon each casket. The vast concourse bared their heads to the solemn words and scene and thousands joined in the Lord's prayer.

The Rev. Father McGee then consecrated with the churchly power invested in him the earth into which the bodies of the Catholic soldiers were placed. Meantime from Fort Myer came the dull crack of a gun every half hour and the national ensigns on the staffs there and at the Lee mansion were run down to half mast. As soon as the religious services had been concluded, flanking detachments of the Fourth and Fifth artillery fired three volleys, and in the solemn hush that followed the salute the bugle sounded "Taps." The presidential party and the military departed, leaving the actual work of interment to follow. As each of the caskets weighs almost 500 pounds and requires eight men to handle it, it will be two or three days before all the bodies are in their

graves. In order to permit all government employes to attend the services, all the departments and the federal courts were closed by an executive order of the president and all the flags in the city were half masted.

### Land For Carnegie's Offer.

PITTSBURG, April 7.—The announcement that Andrew Carnegie is to furnish McKeesport with a new public library was received with great joy by the people of that city. Biddle B. Coursin, a wealthy resident of McKeesport, has made an offer of a site to the Woman's club of one acre of ground in the Tenth ward, on the hill near the mouth of the Youghiogheny river facing on Fifth avenue.

### Verdict as to the Monk's Death.

GREENSBURG, Pa., April 7 .- The coroner's jury rendered a verdict that Herman Strattman, the dead monk found in Loyalhanna creek, came to his death by being struck on the head with a blant instrument in the hands of some person or persons unknown. The body was conveyed to the monastery and it will be interred in the cemetery adjoining.

### THE EAST END.

### GLASS PLANT PROMISED

Over Six Thousand Dollars Subscribed.

THOUSAND NEEDED FIFTEEN

To Make the Project a Success-More Buildings Under Contract-Mayor Bough Has Issued an Order-Discovered a Fire.

It is now assured that the glass factory will be located in the East End on the Harker property. Such was the statement given out yesterday by a prominent business man of Virginia avenue.

When active work on the project was being done last fall trust talk among the potteries was at its height. Those who had the matter in hand decided it would be wise to do no work until the trust matter had been settled one way or another. Last week the promoters of the project met and decided to commence the work of soliciting stock at once. This was commenced last Monday, and so far this week over \$6,000 has been raised. The capital stock of the company will be \$15,000, paid up.

This morning one of the company stated that everything looked favorable for work on the erection of the plant to be commenced not later than the last of store of Frank E. Oyster & Co. a full May.

### More Houses In Sight.

John Fowler will within a few weeks commence the erection of a fine residence in Pennsylvania avenue. It will cost in the neighborhood of \$4000.

Mrs. George Thompson, of Ralston crossing, will also commence the erection of two modern dwellings in Pennsylvania avenue, near the park.

Plans are now being drawn for three frame dwellings to be erected in the Dry Run district by Harvey Martin. Work on these houses will be commenced within a few weeks.

### Ordered by the Mayor.

Mayor Bough yesterday afternoon notified Fireman Terrence that hereafter all people who were caught burning brush, straw or other rubbish in their yards or streets were to be notified to call at city hall. There is an ordinance prohibiting such actions and a heavy penalty is attached. Such fires are all times dangerous, and the practice will be broken at once.

### A New Lumber Yard.

Yesterday afternoon several well known men, residents of East End, held a meeting for the purpose of organizing a company to open a lumber yard. Definite plans were decided upon, and another meeting will be held next week. The capital stock of the company will be about \$5000 paid in full. It will give employment to quite a number of men.

### Found a Fire.

While Officer Terrence was making his rounds Wednesday evening he discovered a chimney in the residence occupied by Mrs. Wise in Railroad street to be on fire. After working for a few minutes the flames were extinguished. The occupants of the house did not know of their danger until notified by the officer.

### Now They Can Talk.

Manager Swaney this week placed telephones in the residence of H. A. Weeks, in Pennsylvania avenue, and in the office of Doctor Davis. It is expected at least 12 telephones will be in active use in this part of the city before the end of the month

### Soon to be Married.

It was stated yesterday evening a prominent young man of East End and a young lady residing in Pennsylvania avenue would soon be married. The parties when seen would neither confirm nor deny the report.

### Able to be Out.

I. N. McHenry, of Erie street, who has been confined to his home for four months suffering with catarrhal fever, was able to be out yesterday for the first time. He is very weak.

### Another Stranger.

The many friends of Mr. and Mrs. Andrew Horner, of Helana, will be pleased to learn that a little son came to their home yesterday evening.

### STOPPED THE FUN.

Humane Officer Lloyd Cut the Dog at Yesterday afternoon Humane Officer

Lloyd discovered a party of small boys

driving a dog hitched to an express wagon. Two boys were seated in the wagon while two other youngsters were making the animal pull the load. The humane officer decided it was a case of cruelty, and proceeded to cut the dog loose from the wagon and send the small boys home.

### A BRAVE BOY.

He Continued on the Field After Being Badly Wounded.

Private Emmenizer, of E company, Mt. Pleasant, Westmoreland county, Pa., is home from Manila. Young Emmenizer was struck by a Mauser bullet on the night of July 31, 1898, and his right hand was badly shattered. Immediately afterward a bullet tore through the fleshy part of his right arm. Despite the pain, the young hero continued firing, the blood from the wounded hand filling the chamber of his Springfield rifle. When the writer shook hands with the courageous lad on Wednesday night last, he gloried in the thought that he had served with such heroes.

### A GENUINE TREAT

While Considering the Fate of George Brunt.

THE VOTE STOOD TEN TO THREE

Fer Several Hours, When One Came Over to the Majority, and the Remainder of the Time Was Spent In Convincing the other Two-Over Twenty Ballots Taken.

It is more than a week since George Brunt walked from the courthouse in Lisbon cleared by a jury of the charge of murder in the second degree, but the story of what the jury did while it was locked in the little room used by such bodies has never until now been given to the public. Rumors have been circulated, but there were few persons who could put much faith in them. While they may have told a portion of the trath it was very well understood that only a little had been told. This lack of information was probably due to the fact that each juror agreed to say nothing of what transpired, at least not until the trial had ceased to be a matter for general discussion. The story, however, has come out, and will doubtless be read with interest by persons in this place who wondered how the jury reached its

When the jury retired a vote was at once taken on the question of whether the accused was guilty, as charged in the indictment, of murder in the second degree. The result showed that 11 jurymen believed he was not, the other vote being in the affirmative. It was soon discovered that the man who voted for conviction did not understand the question. He thought he was voting on a proposition of punishment without regard to degree, that is whether the secused should or should not be made to suffer for what he had done. The matter was explained to him at length, and he acknowledging that he had made s mistake was ready for the second ballot. It was then plainly stated that the jury would vote on the question of the guilt of George Brunt, as indicted. and it was decided that he was not guilty of murder in the second degree.

The next proposition was whether he was guilty of manslaughter, and here is where the battle raged. Nine jurors did not vote for it, but the other three believed he was guilty and voted that way for a long time. Ballot after ballot was taken, but there was no change. At length one man went over to the majority, and the vote stood 10 to 2, The struggle was renewed, and there was more balloting. After a time the refractory members decided they were wrong, and voted that manslaugher should not be the verdict. Then the jury decided the accused was innocent. and the report was promptly made to Judge Kennedy.

The parties who were for conviction were not residents of the southern part of the county, although their names cannot be learned. More than 20 ballots were taken before the verdict was finally agreed upon.

### WHEAT ALL RIGHT.

State Report Says It Weathered the Winter Well.

The state crop report for April issued by the state board of agriculture shows that the wheat crop in this state has weathered the severe winter in fairly good shape, thanks to the heavy coating of snow that covered it during the period of the severest cold.

The condition of the crop is placed at 85 per cent of a full average condition at this season, with the chances for imthe chance, of course, that unfavorable weather may still further reduce the percentage, but one seems warranted now in expecting an end of wintry weather.

THREE WITNESSES MISSING.

Sixty Men Examined For Jurymen In Mrs. George's Trial.

Canton, O., April 7.—At the closing of court Thursday the defense still had nine peremptory challenges, and if all are exercised much more time will be required to complete the jury, It was not believed, however, that many more challenges would be preferred and that at least ten of the men already selected probably will be acceptable to the de-

Sixty men had been examined as to qualifications for the jury.

Mrs. Althouse and young Hogan, the witnesses wanted by both sides, had not turned up and their present whereabouts were unknown. Mrs. Althouse had left a Pennsylvania town to which she had been traced. THE United States is sending some warlike men to the Czar's peace conference.

THE lack of war news from the Philippines must not be taken as evidence that the war is over. Aguinaldo has not yet been captured.

WAGE increases at two big iron mills are announced today, and the Demccratic claim that Republican prosperity is not prosperity has dropped as many notches.

IF it must be Bryan or Miles, by all means give us Miles. He has something to recommend him, even if he is endeavoring to convince the country that he would make a good Democratic candidate for president.

THE anti-expansionists continue to persistency that would be interesting in almost any other cause. The position pound away at their opponents with a they have taken gives them no sympathy from their more broad minded country.

Just why Bryan is to write a book on the Philippine question does not appear. His views, such as they are, are well WAS NOT HEARD THIS MORNING known to the public, and unless he has formed a new opinion he cannot have anything of interest to offer that portion of the public that has been following his course since he left the army.

It is gratifying to know that in some sections of Cuba the people are awakening to the knowledge that this government is their best friend. ### BRYAN IN OHIO.

It is becoming more plain almost every day that Colonel Bryan's Ohio friends are doing all they can to capture the state for him and send a free silver delegation to the convention which he hopes will make him choice for president. last, and perhaps the best of the schemes for his advancement comes from Columbus where these things are usually born and reared to maturity. It is proposed to invite the colonel to a banquet to be given under the name of a Democratic club, the date to suit his own convenience. Democratic leaders from all parts of the state are to be among the guests, while not a few pronounced silver men from other states are expected. The meeting will, it is expected, be a big boom for Bryan and Bryanism, and bring men to his standard who would not otherwise shout loud and long for the hero (?) who abandoned his regiment when he learned it was about to be sent out of the country. If Ohio Democrats are to be caught by the bait the people of this state will likely pass through a warm time before next November.

Because Her Husband Damaged the Furniture.

Because He Had Not Yet Recovered From the Effects of Last Night's Troubles--A Second Street Case--Young Men Settle With the Mayor,

Last midnight Officer McMillan arrested Bartlett Brown, at his home in Union street. He was taken to jail and this morning a charge of disorderly conduct and using obscene language was filed against him by his wife.

Brown went home in an intoxicated condition last night and when he entered the front door the trouble began. Some of the furniture was damaged, including a table in the dining room. Mayor Bough said this morning he was not in condition to be given a hearing, but would probably be heard late this afternoon.

Yesterday afternoon a resident of Second street attempted to eject several men from his home. He reported the matter to the mayor, but as the complamant did not know any names no charge was made out. The police are now investigating the case, and an arrest may be made tomorrow.

All the young men who caused some trouble on the bridge in January and against whom warrants have been issued have not been arrested yet. Only four arrests have been made, and nine warrants were issued.

from Pittsburg, where he and the remain- the boy. der of the Chester Rolling Mill Co., held the most important meeting of its existence. They had previously decided to enter the iron trade, and had been incorporated in West Virginia for that Auditing Committee of Council purpose. The meeting had for its object the completion of arrangements to begin active operations.

The contract for the main building of Pittsburg, who will do the excavating, structure 300x130 feet. It will be The contract for the mills, that is rolls, etc., was granted the Lloyd, Booth heaviest design. A 70 foot electric crane with a carrying capacity of 30 tons will be a part of the equipment, and will run the entire length of the building. When completed the mill will be one of the finest in the country, the contract price of \$250,000 providing for the latest and best of buildings and equipment. Four hundred and fifty men will be employed, many of them being the highest class of skilled labor known in the iron industry.

The work will be in charge of H. A. Strauss, mechanical engineer, of Wheeling, and as soon as the working plans can be prepared operations will begin. It is believed that work on the foundations will be commenced before the end of this month, but the mill cannot be placed in operation for perhaps six months. It will be impossible to deliver the heavy machinery at the plant antil the railroad is completed, and that work alone will require about four months. Setting the machinery will consume two months longer. The contract for the extension of the road has not yet been let, but the officials at Pittsburg are pushing matters as rapidly as possible and will give out the work next Wednesday. Perhaps it can be done on Tuesday.

The rolling mill will be built on the McDonald farm, a short distance above Rock Spring and almost opposite the power house. The ground is level and well adapted to the purpose for which it will be used.

Mr. McDonald was jubilant this morning over his success. His pet project for years has been the construction of a rolling mill on the Virginia side, and now that he has succeeded in landing the prize he is well satisfied.

OUTLOOK BRIGHTER STILL.

This Country, England and Germany Agree on the Powers of the High Commission.

Washington, April 7.—Herr Solf, who is to succeed Dr. Raffel as president of the municipal council of Apia, left Washington for his post. He intends to stop at Chicago and also at Colorado Springs, Colo. The state department had not selected its representative on the Samoan commission, but the president was giving the matter his personal attention.

It is deemed proper to name some person who has not been involved in any manner in the past difficulties on the islands. If there is any real intention of securing an amicable agreement between the three powers interested in Samoan affairs it is believed that some such policy as this is essential. Therefore, the Berlin intimation in some of the press dispatches that Herr Schmidt has been selected as the German commissioner does not meet with credence here, for while he was in Apia, first as vice consul and afterwards as president of the municipal council, Herr Schmidt became involved with our consul, Mr. Mulligan, to a degree which led to the retirement of both these officials.

The German ambassador, Dr. Von Holleben, called at the state department to felicitate Secretary Hay on the satisfactory adjustment of the Samoan affair.

Official dispatches were received from Berlin stating that as a result of conferences between the German, British and American representatives a settlement was assured. The main feature of this conference was in a determination that the high commission would act by unanimous vote and not through a majority. This is on the theory that the delegates will be of high character, that unanimous agreement will be certain, although there is, of course, the possi-bility of a deadlock. The present tendency is not to provide a final arbitrator, but to assume that the commission will agree among themselves. This eliminates for the present King Oscar of Sweden, who has been mentioned for umpire. The German ambassador and members of his staff also made a call at the British embassy, thus turther evidencing the agreeable relations which have suddenly taken the place of the rather strained conditions heretofore prevailing on Samoa.

CUBANS BECOMING HAPPY

Starvation About Disappeared In Several Provinces-Yellow Fever Time About May 1.

WASHINGTON, April 7 .- Major General John R. Brooke has forwarded to the adjutant general copies of reports of sanitary measures taken in the departments of Santa Clara and Matanzas.

Major J. H. Hysell, chief surgeon of the department of Santa Clara, in a report dated at Cienfuegos, Feb. 26, said in part that there had been seven cases of yellow fever among the troops at Sancti Virginia-Rain Friday; Saturday fair; Spiritus, with one death. The source of brisk to high northeast to north winds. the infection was an old church, formerly used by the Spanish soldiers as a hospital. Other buildings where there were cases of smallpox and other diseases were destroyed by the Americans.

Lieutenant Colonel Timothy E. Wilcox, chief surgeon of the department of Matanzas, reported under date of March He had visited 13 different towns in the department and said that the rations and medical supplies had been distribnted in these places and greatly relieved the suffering. The condition of the people had greatly improved. Those who had sufficiently recovered from starvation and sickness had gone to work.

The reconcentrados had gone back to the country when able, but many are obliged to return for rations—food being yet unobtainable in sufficient quantities to sustain them. Assistance will be required for nearly two months longer. Deaths from starvation have ceased to occur; the people are cheerful and hopeful. One sees smiling faces and hears laughter and singing.

It appears that the limit of safety for unacclimated troops in this vicinity is May 1. After that date paludal fevers, as well as yellow fever, may be expected. This is the concensus of opinion of med ical men throughout the province visited.

Schools were found in operation and apparently well attended.

OUTRAGES BY TORRES.

Americans Protest and a Warship Was Ordered to Bluefleldt, to Also Costa Rica.

WASHINGTON, April 7 .- The cruiser Detroit, which is now lying off La Guayra, Venezuela, has been ordered posthaste to Bluefields, Nicaragua, for the protection of American interests in that quarter.

The arbitrary and extortionate policy adopted by General Torres at Bluefields, whose restoration to power at this time has been followed by acts which American residents resent and protest against, is the main cause of the vessel's dispatch. The state department cabled instructions to the United States diplomatic representative at Bluefields to lodge an energetic protest with the Nicaraguan government against the action of General Torres, and a disregard of this protest will be followed up by a more positive step. In Costa Rica the American business interests and residents were in trouble as a result of an insurrectionary movement. It was understood that the insurgents were levying forced loans on them, besides collecting exorbitant and double duties on imports.

TO ALLEVIATE DISTRESS.

Army Expedition Ordered to Hurry to the Copper River District, Alaska.

Washington, April 7.—Acting Secretary Meiklejohn stated that owing to the numerous stories of destitution and suffering in Alaska which are being received at the department orders have been issued to Captain Abercrombie, commanding the Copper river expedition, to hurry his departure as much as

A telegram received from that officer indicated that this expedition will leave Seattle on the 13th inst. They should reach Valdez on the 19th of the month. The hope is expressed at the war department that the prompt action of the military authorities in expediting arrangements will serve to alleviate the distress at an early date.

An Egg Taken as Evidence.

An extraordinary birth certificate was submitted at a meeting of the school attendance committee of the Northwich Union the other day. A widow named Bell had been called upon to prove that her daughter had reached the school exemption age, and she produced an egg, beautifully colored in purple, yellow and cream, whereon, in almost copperplate characters, the name and date of nativity were picked out in white. together with the texts, "The Lord shall guide thee continually" and "Teach me to do thy will." This novel certificate was the only record possessed by the mother, and after being much admired by the committee was accepted as evidence. - Birmingham Post.

Mixed Berries.

A young tailor named Berry, lately succeeded to his father's business, once sent in his account to Charles Matthews somewhat ahead of time, whereupon Matthews, with virtuous rage, wrote him the following note:

"You must be a goose-Berry to send me your bill-Berry, before it is due-Berry. Your father, the elder-Berry, would have had more sense. You may look very black-Berry, and feel very blue-Berry, but I don't care a straw-Berry for you and your bill-Berry."-"Cyclopædia of Anecdotes."

The Murderer Escaped.

NEWKIRK, O. T., April 7 .-- It is admitted by members of the posse which chased Claude Mattox through the territory for 50 miles that the mnrderer made good his escape. Sheriff Pearce, who headed the pursuers, was said to have killed Mattox.

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours and union labor employed.

For nearly a year, except for occasional intervals in which inherent cussedness was the guiding influence of his behavior, his conduct has been comparatively satisfactory to the officials. Marlatt will be confined in the cage antil the new steel apartment for unruly prisoners, authorized at the session of the board of managers to be built, and mentioned in the NEWS REVIEW of vesterday, is completed.

Marlatt is now almost as bad as he ever was and fears are entertained by the prison officials that he will seize the first opportunity to attack the guards. Marlatt has been raving like a madman and stutters so that he can scarcely be

He imagines the prison officials have something against him and that is why he is locked up. He threatened to kill anyone who entered his cell. Guard Pritner asked him for his cell bucket Wednesday and he promptly handed it to him. The guard then asked for the lid, whereupon he raved and swore like a maniac, saying the guard had no use for it and he had not better try to enter the cell to get it. He was advised to give up the lid, but stoutly refused. He will be kept in the steel cage until the new cage is built.

GAS ORDINANCE

of Council.

The meeting of council to be held Tuesday evening promises to be very interesting.

One of the last actions of the old council will be to vote on the gas ordinance and finish up any business they may have to transact. The new council will organize and the committees will be named, but it is probable no appointments will be made at the meeting.

GAME ROOSTER

Flew on the Shoulder of a Child With Painful Results.

Yesterday afternoon in Seventh street the little child of a prominent man was playing in the yard and began to chase a game rooster out of the lot. The chicken did not take the action in the best of humor, and flying on the shoulder of the child spurred it in the face, inflicting a slight wound. The screams of the child attracted the mother and the rooster was driven away.

RATES FOR TEACHERS

Who Will Go With Professor's Party to Los Angeles.

Professor Rayman has received the report of the railway committee of the National Teachers' association for the state of Ohio. The route selected to Los Angeles is the Santa Fe and return by the Denver and Rio Grande. The rate will be the same as that granted the Endeavor society two years ago, making the trip cost in the neighborhood of \$68.

The party will leave here about July 3, and the convention will meet in Los Angeles July 11. Professor Rayman has 12 counties to look after. It is not known as yet how many people will attend the convention from this section of the state.
